ENVIRONMENTAL DESIGN
(EDES)

EDES Courses

EDES 101. Introduction to Architecture and Environmental Design. 2 units
Term Typically Offered: TBD
Familiarization with the professional fields of architecture, landscape
architecture, structural engineering, construction, and city planning.
Introduction to the college's programs as they relate to individual
aptitudes. The design process. Visiting speakers. 2 lectures.

EDES 123. Principles of Environmental Design. 4 units
GE Area D4
Term Typically Offered: F, W, SP
Recommended: Previous or concurrent enrollment in ARCH 131 for ARCH
majors.
Introduction to the individual's and societal relation with the designed
and built environment, and its impact on natural resource consumption,
identity, behavior, community, and human health, safety, and general
well-being. Study of the individual and role of design in community
development and in making and preserving culture. Diverse perspectives
including designers, engineers, governing bodies, and individual users. 2
lectures, 2 discussions. Fulfills GE D4.

EDES 333. Professional Presentations. 4 units
Term Typically Offered: TBD
Prerequisite: Third-year standing or permission of instructor.
Skills and tools for employment acquisition or graduate school
admissions. Individual resume design and production. Documentation
of personal, professional and academic experience via written, oral and
image based systems. Employment interview dynamics. Electronic and
hardcopy portfolio production. Internet marketing. 1 lecture, 3 activities.

EDES 350. The Global Environment. 4 units
GE Area F
Term Typically Offered: TBD
Prerequisite: Junior standing; completion of GE Area A with a grade of C-
or better; and completion of GE Area B.
Interdisciplinary investigation of how human activities impact the Earth's
environment on a global scale. Examination of population, resource use,
climate change, and biodiversity from scientific/technical and social/
economic/historical/political perspectives. Use of remote sensing maps.
Sustainable solutions. 4 lectures. Crosslisted as AG/EDES/ENGR/GEOG/
ISLA/SCM/UNIV 350. Fulfills GE Area F.

EDES 406. Sustainable Environments. 4 units
Term Typically Offered: F
Prerequisite: Fourth year or graduate standing.
Collaboration of interdisciplinary faculty and guest speakers/panelists.
Introduction, illustration and analysis of concepts and principles
for sustainability to be used in all aspects of environmental design.
Integration and application of knowledge of human and natural systems
with environmental, social and economic concerns, from a global-to-local
perspective. 4 lectures.

EDES 408. Implementing Sustainable Principles. 4 units
Term Typically Offered: W, SP
Prerequisite: EDES 406.
A primarily project-based course, intended to aid students who wish to
collaborate with the purpose of implementing sustainability principles
by developing tools, process or designs, for community-based projects
and proposals at various scales of planning, architecture and design of
the human environment to address social, environmental and economic
issues. 4 lectures.

EDES 410. Advanced Implementation of Sustainable Principles. 4 units
Term Typically Offered: W, SP
Prerequisite: EDES 408.
Advanced continuation of community-based projects defined and
initiated in EDES 408. Ongoing projects, individual and group, address
variable scales of planning, architecture, and environmental design, with
required completion at the end of the course. 2 seminars and supervised
work.
