Prospective Graduate Students

Cal Poly offers over 45 master's degree programs covering all of our six colleges:

- College of Agriculture, Food and Environmental Sciences (CAFES)
- College of Architecture and Environmental Design (CAED)
- Orfalea College of Business (OCOB)
- College of Engineering (CENG)
- College of Science and Mathematics (CSM) & School of Education (SOE)

A complete listing of our graduate programs can be found on the Graduate Programs site at http://grad.calpoly.edu/.

Application for Admission

An application for admission to a Master's program may be obtained from the Admissions Office of any CSU campus. The application form and official transcripts should be sent directly to the Admissions Office at Cal Poly. An electronic version of the CSU graduate application is available on the World Wide Web at www.csumentor.edu (http://www.csumentor.edu). The CSU Mentor system allows students to browse through general information about CSU's twenty-three campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

All graduate and post-baccalaureate applicants (e.g., master’s degree applicants, those seeking educational credentials, or graduate certificates, and where permitted, holders of baccalaureate degrees interested in taking courses for personal or professional growth) must file a complete graduate application as described in the graduate and post-baccalaureate admission materials at www.csumentor.edu (http://www.csumentor.edu). Applicants who completed undergraduate degree requirements on a CSU campus and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for post-baccalaureate programs may be limited to the choice of a single campus on each application, rerouting to alternative campuses or later change of campus choice is not guaranteed. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. Applications submitted by way of www.csumentor.edu (http://www.csumentor.edu) are expected unless submission of an electronic application is impossible.

The CSU advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and certified transcripts of all previous academic work attempted. Transcripts must be official and sent directly from the issuing institution in a sealed envelope. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Admission to Professional Certificate Programs

All professional certificate applicants must file a complete application by following the Interfolio links found next to each Certificate Program (http://grad.calpoly.edu/programs/prof_certificate.html). Applicants can be completed anytime through the year. Applicants must supply complete and accurate information along with un-official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Contact the Cal Poly Extended Education (http://www.extended.calpoly.edu) Office if you have questions about the application process. Extended Education does not guarantee that Professional Certificate courses will be offered unless adequate enrollments are realized. Applicants for certificates involving online courses will not be accepted from the following states: Alabama, Arkansas, Illinois, Iowa, Kansas, Kentucky, Maryland and Minnesota; pending interstate distance education regulations.

For additional questions regarding the application process, please email us at gradadmissions@calpoly.edu.

Graduate and Postbaccalaureate Admission Requirements

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective. Depending on the objective, the CSU considers an application for admission as follows:

- **General Requirements** -- The minimum requirements for admission to graduate and post-baccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, chapter 1, sub-chapter 3 of the California Code of Regulations.

  - **Specifically**, a student shall at the time of enrollment:
    1. have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
    2. be in good standing at the last college or university attended;
    3. have attained a grade point average of at least 2.5 (A = 4.0) in the last 60 semester (90 quarter) units attempted or have earned a...
grade point average of at least 2.5 on the last degree completed by
the candidate; and
4. satisfactorily meet the professional, personal, scholastic, and other
standards for graduate study, including qualifying examinations,
as appropriate campus authorities may prescribe. In unusual
circumstances, a campus may make exceptions to these criteria.

• A student who meets the minimum requirements for graduate and
post-baccalaureate studies may be considered for admission in
one of the four following categories:
  • **Graduate Classified** -- To pursue a graduate degree,
candidates are required to fulfill all of the professional,
personal, scholastic, and other standards, including qualifying
examinations, prescribed by the campus.
  • **Graduate Conditionally Classified** -- Candidates may be
admitted to a graduate degree program in this category if, in
the opinion of appropriate campus authority, deficiencies can
be remedied by additional preparation.
  • **Post-Baccalaureate Classified**, e.g., admission to an
  education credential program -- Candidates who wish to
  enroll in a credential or certificate program are required to
  satisfy additional professional, personal, scholastic, and other
  standards, including qualifying examinations, prescribed by the
campus.
  • **Post-Baccalaureate Unclassified** -- To enroll in
  undergraduate courses as preparation for advanced degree
  programs or to enroll in graduate courses for professional or
  personal growth, a candidate must be admitted as a post-
baccalaureate unclassified student. By meeting the minimum
requirements, the candidate is eligible for admission as a post-
baccalaureate unclassified student. Admission in this status
does not constitute admission to, or assurance of consideration
for admission to, any graduate degree or credential program,
and requires approval from the Director of Graduate Education.

If your transcript is not received by the Admissions Office prior to
the first day of what would be your second quarter, or if your degree
was not awarded for a preceding term, you are required to reapply
for a subsequent quarter. A second application and fee to a post-
baccalaureate program are not accepted or processed until an official
transcript is provided showing that your undergraduate degree has
been awarded. Unless proof of an undergraduate degree is provided
by the registration date for your second quarter, you will not be allowed
to register.

Under special circumstances graduate coordinators may recommend
admission of applicants who do not meet eligibility requirements. The
Director of Graduate Education acts on these recommendations.

**Residency Status Determination**
The campus Admissions Office determines the residency status
of all new and returning students for nonresident tuition purposes.
Responses to the application for admission and, if necessary,
other evidence furnished by the student are used in making this
determination. A student who fails to submit adequate information
to establish a right to classification as a California resident is
classified as a nonresident. For detailed explanation please refer to
Determination of Residence for Nonresident Tuition Purposes (http://
catalog.calpoly.edu/financialinformation).

**International (Foreign) Student Admission Requirements**
International master’s and credential applicants must file an application
for admission with the Office of Admissions. For this purpose, “foreign
students” include those who hold U.S. temporary visas as students,
exchange visitors, or in other non-immigrant classifications. The
application may be filed at any time, but in order to be considered for
admission in the targeted quarter the portfolio must be completed by the
dates listed below.

<table>
<thead>
<tr>
<th>Term</th>
<th>Application Filing Period</th>
<th>File Completion Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Quarter</td>
<td>November 30</td>
<td>April 1st</td>
</tr>
</tbody>
</table>

All master’s and credential applicants must submit the following
documents to establish their admission portfolio:

- Application form, Parts A and B
- $55 application fee
- Certified transcripts from all schools attended, showing
coursework. All official documents must be accompanied by a
certified English translation from one of the following
  - Institute for International Education (IIE)
  - AMIDEAST
  - Saudi Arabian Education Mission
  - United States Embassy or Consulate
- Confidential financial statement
- Promissory note agreeing to purchase required health insurance
- International Educational Background form
- AACRAO credential analysis fee of $75 in the form of a U.S. Postal
  Money Order or an International Money Order, made payable to
  “AACRAO” (American Association of Collegiate Registrars and
  Admissions Officers)
- Spouse/Dependent Declaration form

International graduate certificate applicants must contact their specific
department for application requirements and deadlines.

All graduate and post-baccalaureate applicants, regardless of
citizenship, whose native language is not English and whose
preparatory education was principally in a language other than English
must demonstrate competence in English. Those who do not possess
a bachelor’s degree from a post-secondary institution where English
is the principal language of instruction must take either the Test of
English as a Foreign Language (TOEFL) or the International English
Language Testing system (IELTS) exam.

The TOEFL must have been taken within the last two years with a
minimum score of 550 (paper version), 213 (computerized version) or
80 (internet based). The minimum score for the IELTS is 6.0, although
individual programs may require higher scores. Applicants are advised
to review program-specific information.

The TOEFL or IELTS requirement is waived for applicants whose
native language is English. Applicants from countries listed on the
following website will be considered native English speakers. http://
admissions.calpoly.edu/apply/toefl

The Office of Admissions completes an initial portfolio review that
includes verification of an equivalent B.A./B.S. degree, a determination
of the appropriate level of study and a narrative evaluation of all work
completed. Copies are included in the applicant’s file.
The Office of Admissions notifies all applicants of the documents needed to complete their portfolios. Graduate coordinators may require additional documentation to assist them in determining an applicant’s suitability for the program of study.

International applicants for graduate study can receive either conditional or classified admission. The graduate coordinators make all recommendations to the Director of Admissions for conditional and classified admissions to the graduate program.

Health Screening
All new and readmitted students must provide proof of full immunization against measles and rubella prior to enrollment. All students 18 years of age or younger at the start of their first term must provide proof of full immunization against Hepatitis B before enrolling. These are not admission requirements, but are required of students as conditions of enrollment in CSU. Proof of measles and rubella immunizations is also required for certain groups of enrolled students who have increased exposure to these diseases. See Academic Requirements and Policies (http://catalog.calpoly.edu/academicstandardsandpolicies/registration) for more information, or contact Health Services at 805.756.1211) or visit www.hcs.calpoly.edu/.

Deadlines
Master's and credential applicants may file an application for admission at any time. In order to be considered for admission in the "targeted" quarter, the portfolio must be completed by the dates provided at the following websites:

- Application deadlines for graduate programs are available at http://admissions.calpoly.edu/apply/gprograms.
- Application deadlines for credential programs are available at http://soe.calpoly.edu.
- Application deadlines for graduate certificate programs are available at http://www.extended.calpoly.edu/

Graduate Certificate Programs

- Fire Protection Engineering Applications (http://catalog.calpoly.edu/collegesandprograms/collegeofengineering/fireprotectionengineeringapplicationsgraduatecertificate)
- Fire Protection Engineering Science (http://catalog.calpoly.edu/collegesandprograms/collegeofengineering/fireprotectionengineeringsciencegraduatecertificate)

Cal Poly offers studies leading to advanced degrees and graduate certificates through its instructional departments. University policy governing graduate study emphasizes the need for students to demonstrate maturity, responsibility and scholarly integrity. Graduate students should have a command of the basic knowledge, techniques, and skills essential for independent and self-directed study.

In graduate courses, students cope with more complex ideas, problems, techniques and materials than in undergraduate courses. Graduate study requires searching and exhaustive analysis, identification and investigation of theories and principles; application of theory to new ideas, problems, and materials; extensive use of bibliographic and other resource materials, with emphasis on primary sources for data; and demonstration of competence in scholarly presentation of the results of independent study.

Regulations governing fees, grading, and financial aid are located elsewhere in the catalog. This section of the catalog reviews university policy and minimum requirements governing graduate studies. It is not, however, all inclusive.

Within these general requirements there are specific departmental requirements for each degree. These are found in the descriptions of master's degree programs within each school's description. It is important that graduate students, in consultation with their advisors, familiarize themselves with these requirements. Failure to do so may result in a substantial delay in progress towards the degree and graduation. It is the responsibility of the student to ascertain and comply with all university, college and departmental procedures and requirements.

Academic Requirements

The following conditions and requirements are common to all master's degrees:

- All students shall attempt to satisfy the graduation writing requirement during the first quarter of enrollment.
- A student shall file an approved formal study plan before the twelfth unit of graduate study is completed.
- A student shall maintain a grade point average of 3.0 (grade of B on a scale where A = 4.0), or better, in all courses in the formal program of study for the degree. A course in which no letter grade is assigned shall not be used in computing the grade point average.
- A student shall maintain satisfactory scholarship and professional standards. Only those graduate students who continue to demonstrate a satisfactory level of scholastic competence and fitness, as determined by the appropriate university authorities, shall be eligible to continue in such curricula. Students whose performance is judged to be unsatisfactory by the authorities of the University may be required to withdraw from all graduate degree curricula offered by the University.
- A student shall successfully complete a culminating experience (thesis, project and/or comprehensive examination).
- A student shall complete all of the graduate work in the formal study plan within the seven-year period preceding the date when all the requirements for the degree have been met.
- A student may elect to meet the graduation requirements in effect in the catalog either at the time the student was admitted to graduate standing (conditional or classified) provided that continuous enrollment was maintained, or at the time of graduation. The student may be required to make substitutions for discontinued courses.

Graduate Student Continuous Enrollment Policy

Effective Fall Quarter 2009, graduate students are required to maintain continuous enrollment from the time of first enrollment in a graduate program until completion of the degree. Continuous enrollment is defined as being enrolled during Fall, Winter, and Spring quarters each year. All graduate students must be enrolled during the quarter in which they graduate. Therefore, a student graduating summer quarter must be enrolled during the summer. Students can maintain continuous enrollment by being enrolled as regular students; obtaining approval for an education or medical leave prior to the quarter when such a leave would begin; or registering in a special course designated for this purpose, during quarters in which they are not regularly enrolled. The special course, GS 597, is listed in the University catalog and is taken through Cal Poly Extended Education. GS 597 is a one-unit course, offered credit/no credit; credits in GS 597 do not count toward meeting degree requirements. Students who fail to fulfill this continuous enrollment requirement will not be permitted to graduate—even if all degree requirements have been completed—until payment has been made for all quarters of non-enrollment. This requirement is not retroactive to terms prior to Fall 2009.

For further information and a registration form, visit the Extended Education website at: http://grad.calpoly.edu/students/continuous.html

Academic Probation

A student who is enrolled in a graduate degree program in conditionally classified or classified standing shall be placed on academic probation for failure to maintain a cumulative grade point average of at least 3.0 (grade of B on a scale where A = 4.0) in all courses in the formal program of study for the degree.

A student who has been admitted as post-baccalaureate classified in order to pursue a credential program shall be subject to academic probation for failure to maintain a cumulative grade point average of at least 3.0 in all units taken in the credential program.

A post-baccalaureate unclassified student (one who has not been admitted to either a credential or graduate degree program) shall be subject to academic probation for failure to maintain a cumulative grade point average of at least 2.5 in all units attempted subsequent to admission to post-baccalaureate standing.

Academic Disqualification

A graduate or post-baccalaureate student shall be subject to disqualification if while on probation the student fails to achieve a sufficient grade point average to be removed from probationary status. Disqualification may be either from further registration in the program or from further enrollment at the University as determined by the student's college dean. Notification of disqualification is made by the college dean.
Administrative Academic Disqualification

A graduate student may also be placed on probation or may be disqualified by appropriate campus authorities for unsatisfactory scholastic progress regardless of grade point average. Such actions shall be limited to those arising from repeated withdrawal, failure to progress toward an educational objective or noncompliance with an academic requirement, and shall be consistent with guidelines issued by the Chancellor's Office.

Advancement to Candidacy

Advancement to candidacy recognizes that the student has demonstrated the ability to operate at and sustain a level of scholarly competence that is satisfactory for successful completion of the degree requirements. The student is then cleared for the final stages of the program, which, in addition to any remaining coursework, includes the thesis, project, and/or comprehensive examination.

The student may request advancement to candidacy only after a formal program of study has been submitted, the graduation writing requirement has been satisfied, and sufficient coursework has been completed to allow the department to make a judgment about the student’s potential to complete the program.

Advisement

Soon after enrollment, students should contact the department for the assignment of an advisor in their area of study. Students should meet with their advisors prior to registration, for information concerning prerequisites, courses to be taken, and to develop an informal study plan. A working study plan is a projection of initial coursework, including prerequisites, that the student undertakes prior to filing a final formal study plan, or in lieu of the formal program of study, if the student is a post-baccalaureate student without credential or degree objective.

Departmental advisors and graduate coordinators share the responsibility for advising master's degree students throughout their work toward a degree. Students are urged to maintain a personal file of transcripts and other records of all undergraduate and graduate work undertaken, and to make this file available whenever they seek advising.

Blended BS+MS Programs Academic Objectives

Blended programs provide an accelerated route to a graduate professional degree, with simultaneous conferring of both bachelor's and master's degrees. Some blended programs allow for the possibility of students' earning graduate credit for several of their senior electives, effectively decreasing the summed unit requirements for both degrees. Blended programs provide a seamless process whereby students can progress from undergraduate to graduate status without having to apply through the Admissions Office (thereby eliminating the need to pay the application fee). In addition, blended BS+MS programs provide an opportunity for students to integrate their senior project with the graduate thesis/project. Students must still complete all undergraduate requirements.

Process for Changing Status

Students who are interested in pursuing blended programs should submit a request to the department head or graduate coordinator for a change of degree objective.

The department head/graduate coordinator, with assistance of the Graduate Education Office, determines whether students meet the eligibility criteria (see below). If criteria are met, the coordinator sends a change of degree objective form to Graduate Education. Students are notified of their acceptance upon receipt of the signed Change of Objective form.

Eligibility for Blended Programs

The following are minimum eligibility criteria; individual departments may have more stringent requirements.

1. Students must successfully complete a minimum of 180 / maximum 192 units (for engineering programs the maximum number of units is 205). These units must count toward one or the other of the two degrees (BS or MS) that ultimately are awarded in the blended program; they are not restricted to those counting toward the undergraduate degree alone.
2. Students must transition to graduate standing for two quarters before degree completion.
3. Students must have a minimum 2.5 GPA in the last 90 quarter units attempted. (Note that students, once admitted to graduate standing, must maintain a 3.0 GPA or better in courses counting toward the graduate degree.)

In addition, students must complete the Graduation Writing Requirement (GWR) or demonstrate that this requirement was satisfied during their undergraduate program.

Process to Graduate with Both Degrees

1. Students must be enrolled in BMS status for a minimum of two quarters prior to graduation.
2. Students must submit the Formal Study Plan to Graduate Education (only for courses counting toward MS); request Advancement to Candidacy; and maintain a minimum 3.0 GPA for courses counting toward MS.
3. When all requirements are met for both the undergraduate and graduate programs, both degrees will be awarded at the same time and graduation ceremony.
4. If a student fails to complete the MS program requirements, the BS degree may be granted when all requirements for that degree are met.

Change of Post-Baccalaureate Objective

If students wish to change their post-baccalaureate objective, they must formally file this intention by obtaining a Post-baccalaureate Change of Objective form, available in Graduate Education or at www.grad.calpoly.edu.

Comprehensive Examination

A comprehensive examination is one of the possible culminating experiences for the master's degree and assesses the student's ability to integrate knowledge, show critical and independent thinking, and demonstrate mastery of the subject matter. The results of the examination should provide evidence of these abilities and

Last updated: 01/29/16
Courses Counting Towards Graduation and Credit/No Credit Grading

Only those letter-graded courses in which an A, B, or C is earned (C- is acceptable) count towards satisfying the total unit requirement for the degree. Courses which are offered only on a credit/no credit basis also satisfy the unit requirement if a credit grade is earned. The equivalent of an A or a B is required to earn credit in such courses.

Graduate students may elect to take courses that are not part of their formal program of study on a credit/no credit basis.

Credit by Exam for Coursework

See Evaluation of Transfer Credit (http://catalog.calpoly.edu/academicstandardsandpolicies/evaluationoftransfercredit).

Culminating Experience

The culminating experience for the granting of a graduate degree is the successful completion of a thesis, project or comprehensive examination. The quality of work accomplished, including the quality of the writing, is the major consideration in judging the acceptability of the thesis, project, or comprehensive examination. The student must successfully complete the culminating experience required by the specific program to be granted a graduate degree.

Enrollment in Graduate Courses

To enroll in 500-level graduate courses a student must have post-baccalaureate standing, graduate standing, or permission of the instructor.

Formal Study Plan

The student should make an appointment with the advisor before the 12th unit of work is completed to develop a working formal program of study for the master's degree. A formal study plan is an agreement between the student and the college on the specific coursework to be completed in order to fulfill the requirements for the master's degree. A copy of the study plan must be submitted to Graduate Education for review and final approval.

Certain 400-series courses may be completed by the graduate student as part of the degree program when this is consistent with university requirements, departmental master's degree specifications, and the candidate's formal program of study. The student should always consult the advisor to make certain that only approved courses are selected, since departmental requirements vary and some courses are excluded. No fewer than one-half of the units required for the degree shall be in courses organized primarily for graduate students (500-level).

Only 400- and 500-level courses are allowed in an approved graduate plan of study. In those programs where specific courses below the 400-level may be essential for a student's success, the student may be conditionally accepted to the program contingent upon completing those courses. Courses below the 400-level may not constitute any part of the approved units in the plan of graduate study.

No fewer than 32 quarter units of a 45-unit program shall be completed in residence. In programs with more than 45 units an equivalent proportion (32/45) of units must be taken “in residence”. A course taught “in residence” is normally a catalog offering taught by a Cal Poly faculty member. Extended Education courses may not be used to fulfill the residency requirement. However, summer session courses, and up to 12 units taken through Open University, can be counted as courses in residence. Petitioned graduate courses taken at Cal Poly as an undergraduate count as taken in residence. Courses for which students received credit by examination may be petitioned to count as taken in residence. These situations are explained further below.

No more than 24 quarter units of approved Extended Education courses shall be accepted for the master's degree. Regular Extended Education courses may not be used to satisfy the residency requirement, but grades earned in these courses count in calculation of the student's grade point average if they are part of the formal study plan.

No more than 12 Open University quarter units shall be approved in the submission of a formal study plan. Open University courses are counted for “in residence” credit.

In addition to the above rules governing “in-residence” courses, the following apply to courses included on the formal study plan:

- No more than nine quarter units shall be in student teaching.
- No more than nine quarter units shall be allowed for a thesis or project.
- No more than 12 quarter units of approved post-baccalaureate (unclassified) course credit may be accepted for the master's degree.

Full-Time Graduate Student Status

A full-time graduate student is defined as one taking 8 or more units in a quarter. Students receiving financial aid may need to meet different requirements to be considered full-time and should consult with the Financial Aid Office. Normally students are not permitted to enroll in more than 16 units each quarter.

Grade Point Calculation for Graduate Degree

Satisfaction of the GPA requirement for the conferring of the master's degree requires a GPA of 3.0 or more in the courses taken in the formal study plan. Repeating a course does not remove a lower letter grade from the overall GPA calculation on the student's transcript.

Graduate Certificate Programs

An academic graduate certificate program declares that a student has satisfactorily completed a sequence of advanced academic courses that provide instruction in a stand-alone, coherent body of specialized knowledge. It is designed to meet requirements for professional competence, expand access to specialized knowledge, or meet occupational needs for advanced interdisciplinary work.

Specific Requirements:

- Admission to a graduate certificate program requires a bachelor's degree from an accredited institution with a major in a relevant field of study. The applicant must have attained a minimum GPA of 2.5 in the last 90 units attempted or have earned a GPA of at least 2.5 in the last degree completed. Work experience may substitute (at the discretion of the program) for the relevancy of the bachelor's degree and for the minimum GPA requirements.
- Courses taken to satisfy the requirements of a graduate certificate program may be applied to the requirements of a graduate degree program; however, students must apply separately for admission into a graduate degree program. No course-work for the certificate...
may be below the 400 level. One 4-unit course in transfer credit may be allowed as determined by the graduate certificate program advisor.

- A minimum GPA of 3.0 is required for successful completion of a graduate certificate program. Students may not elect to take courses required for the certificate as credit/no credit. A graduate certificate program must be completed within three years.
- Students who are enrolled only in a graduate certificate program are exempt from the continuous enrollment requirement for graduate students.

**Graduate Courses Taken by Undergraduates for Graduate Credit**

Cal Poly undergraduates may take courses in the 400 or 500 series for graduate credit while still undergraduates. If they subsequently enter a Cal Poly master’s or credential program, they may petition to have such course credit applied toward their master’s degree or credential program, if the units were not used for the baccalaureate degree. The mechanism for petitioning is a Graduate Petition for Special Consideration, with the signatures that correspond to the student’s graduate program of study.

**Graduation**

A student planning to graduate should request a final graduation evaluation from the Evaluations Office approximately two quarters prior to the anticipated date of degree completion. The Request for Graduation Evaluation is submitted to Graduate Education after both the Formal Study Plan and Advancement to Candidacy have been approved. A student cannot graduate without this evaluation.

**Academic Excellence**

Master’s degree candidates who are academically in the top 10 percent of their program and are recommended by their Graduate Program Coordinator are eligible to be recognized for Academic Excellence. Nominations must be approved by the appropriate College Dean. If approved, the student will be permitted to wear “honor cords” at commencement.

**Graduation with Distinction**

Graduation with Distinction will be determined by the Registrar’s Office after a student’s final Formal Study Plan has been reviewed and approved. **It will NOT be awarded at the December or June Commencement Ceremonies.** The designation will appear on a student’s final transcript and diploma. The criterion for graduation with distinction is defined on the Office of Registrar’s website and in the Cal Poly catalog: “a student whose grade point average is 3.75 or better, may upon the recommendation of the college dean be designated as ‘Graduating with Distinction’.”

**June Only Commencement Awards**

Faculty in each program of study should make recommendations for the Outstanding Graduate Student and the Outstanding Graduate Thesis awards to the appropriate Graduate Coordinator. For a program having more than 50 students, two nominations per award can be made. Finalists for the awards may be asked to supply additional information or material to a review committee appointed by the Director of Graduate Education. The students selected for these awards will be recognized at the Spring Commencement ceremony.

**Graduation Requirement in Writing Proficiency**

The Board of Trustees of the California State University has mandated that all students earning undergraduate or graduate degrees in the CSU must be certified as proficient in writing. In accordance with this mandate, all Cal Poly students must demonstrate competency in writing skills as a requirement for graduation.

Graduate students seeking a Master’s Degree should attempt to fulfill the GWR during their first quarter of residency. (Note: Students who do not complete the GWR will not be advanced to candidacy.)

To fulfill the GWR, graduate students should review their program requirements and determine which of the following three options is appropriate:

1. Pass the Writing Proficiency Exam (WPE).
2. Earn both a grade of C or better (C- or below does not qualify) AND certification of writing proficiency based on a 500 to 800 word in-class essay in a GWR-approved upper-division course selected from the eligible classes listed on PASS. The GWR-approved course may be taken on a CR/NC basis, but the required final course grade of C or better must still be earned in order to satisfy the GWR component of the class.
3. Document that the GWR was met as part of an undergraduate program of study at Cal Poly or another CSU campus within seven years of matriculation as a graduate student.

The Graduation Writing Requirement may be waived, at the discretion of campus authorities, in the following circumstances:

1. An equivalent upper-division, graduation writing requirement was satisfied at another 4-year college or university. Again, no more than seven (7) years may elapse between meeting the requirement elsewhere and beginning graduate study at Cal Poly. Students requesting a waiver must complete the “Application Process and Checklist for a GWR Waiver at Cal Poly” (available on the Writing Skills Program webpage, http://www.writingcenter.calpoly.edu/) before presenting their official, dated documentation to the Writing Skills Program Office, Agriculture Building 10, Room 130.
2. An advanced degree at least equivalent to a Master’s was earned. Supporting documentation, such as a transcript showing the graduation date, must be presented to the Writing Skills Program Office.

Further information on the GWR may be obtained from the Writing Skills Program Office, Agriculture Building (10) Room 130, Phone: 805.756.2067, or on the Writing Skills Program webpage, http://www.writingcenter.calpoly.edu/.

**Leaves of Absence**

See undergraduate section (http://catalog.calpoly.edu/academicstandardsandpolicies/registration).

**Prerequisites**

Each master’s degree program has specific prerequisites, both in courses and in grade-point average. Deficiencies in prerequisites must be removed prior to advancement to classified graduate status. Courses taken for this purpose normally do not count toward fulfillment of the unit requirement for the degree.
Registration

The schedule and instructions for registration and payment of fees are available through the registration and enrollment tab at the MyCalPoly web portal. Detailed descriptions of courses are found in the back of this catalog.

Repeating a Course

Students may enroll in a course for credit more than once only if the catalog course description states that the course may be repeated for credit. An exception to this policy allows the repeating of a course in cases where a grade of D or F was received.

Research Involving Special Conditions

Research that involves the use of human subjects, vertebrate animals, hazardous materials, or information and materials subject to export-control regulations requires special campus review before the study begins. If your research involves any of these special conditions, check with your graduate coordinator and Graduate Education for procedures.

Residence Courses

See "Formal Study Plan" section above.

Returning Students

Matriculated students who have not registered for three consecutive quarters and have not on an approved leave of absence must file an application for readmission before the deadline dates listed below. The application fee must accompany the application for readmission.

Matriculated students who have not registered for one quarter or two consecutive quarters are entitled to their registration priority without applying for readmission. Summer Quarter is a regular quarter and is counted in determining the length of absence.

Second Master's Degree

A student can earn only one master's degree in any one of the graduate programs offered. A student who wishes to complete a second master's degree in another discipline, or two master's degrees simultaneously, must complete all requirements for both degrees.

Of the units required in common for each degree, no more than nine quarter units of coursework may be used to satisfy requirements in both master's degree programs.

Thesis or Project Report Requirements

A thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Normally, an oral defense of the thesis is required.
